The phrase Honesty is the best policy signifies the importance of being a moral and truthful person. Honesty is an important and admirable characteristic.

It is possible that dishonesty may be successful for a time, it may earn money, power and fame, but honesty is sure to succeed better in the long run. Dishonesty cannot face the reality, it has to say hundred lies to hide one. An honest person always wins in the end and therefore honesty should be the most important characteristic of one's life.
